### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record, Eide et al (6,101,470), show that it is old and well known to have a prosody database with cost functions and to convert text to synthesized speech using a rule based speech synthesizer. Syrdal et al. "Three Methods of Intonation Modeling" show that it is well known to use speech that sounds very natural and resembles the acoustic and prosodic characteristics of the typical speaker and to concatenate selected prosody units to generate a final prosody. In regard to claim 1, Eide et al. and Syrdal et al. do not specifically show that an imitation speech database is prepared using recordings of natural human speech, selecting prosody units from said imitation speech database to match said synthesized speech which are concatenated and used to generate a final prosody. In regard to claims 6 and 12, Eide et al. and Syrdal et al. do not specifically show that an imitation speech database is prepared using recordings of natural human speech, converting training text to synthesized speech using a rule based computer synthesizer, recording human speech imitating said synthesized speech, time aligning said recorded human speech with said synthesized speech and extracting features from said recorded speech for syllables in which intonation events occur and generating said imitation speech prosody database, and generating speech prosody from text including: converting text to synthesized speech using a rule based synthesizer, selecting prosody units from said imitation speech prosody database, generating speech prosody from text including: converting text to synthesized speech using a rule based synthesizer, selecting prosody units from said imitation speech prosody database to match said

synthesized speech, and concatenating said selected prosody units and generating a final prosody.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
